

WARNING!

Obama's Deadly FDA Secret is Killing an American Citizen Every 5 Minutes

Are you next? You know he lied about ObamaCare. But what he's hiding now isn't just wrecking your health and draining your life savings. *It's much more sinister...*

Dear Reader,

Call it a conspiracy...

Call it a betrayal...

Call it an outright crime...

But whatever you call it, please understand...

You're being lied to. And the following information could save your life...

In the next few minutes, I'm going to expose a conspiracy hatched at the highest level of government... a conspiracy *so corrupt*, it makes the IRS targeting scandal, Benghazi cover-up, and even NSA domestic spying look innocent.

Plus, I'm going to reveal seven remarkable medical breakthroughs... breakthroughs that Obama's government is actively hiding from you at this moment.

I'm talking about real cures and treatments -- bona fide miracles -- for cancer, diabetes, Alzheimer's, heart disease, arthritis and more.

These proven treatments, with solid science backing them every step of the way, should be making front-page headline news... they should be hauling in Nobel Prizes left and right.

Quite frankly, Obama, Congress, and the FDA should be doing *everything* in their power to be sure you have access to these breakthroughs...

And yet, it remains silent... leaving you a victim to pain, suffering... **even death**. The complete disregard for the health and safety of loyal American patriots like you isn't just reckless... it's an outrage!

- For example, did you know there's a [new cancer cure](#) that can **help dissolve tumors in just a few short weeks?**
- Or that there's a [diabetes cure](#) that could take you from insulin-dependent to **non-diabetic in six weeks flat?**
- What about an arthritis cure that can **relieve pain in 45 seconds** without dangerous side-effects?
- Or an [Alzheimer's treatment](#) with the potential to **stop memory loss dead in its tracks ?**
- And what about a [heart disease cure](#) so powerful it could **allow patients to cancel bypass surgery?**

All of these cures exist and are available to you at this moment. And I'm going to give you the details, right here... right now.

But first, you may be wondering: WHY would the FDA throw a veil of secrecy over such incredible medical miracles?

Simple. Natural cures are not patentable. That means the FDA and the Big Pharma drug companies can't make any serious money from them.

And make no mistake: King Obama and his FDA thugs are all about making money... even at the expense of your health.

Listen to this: **Since Obama appointed his crony Margaret Hamburg as FDA Commissioner in 2009, the FDA has collected over \$2.3 billion in direct payments from major drug companies** including Bristol-Myers, Merck, Johnson & Johnson, Pfizer, GlaxoSmithKline, and Eli Lilly.

In exchange for these payments, the FDA has hustled drugs through the approval process... flooding the market with poisons that were known to have dangerous -- even deadly -- side effects.

How deadly are these drugs? Well, according to the American Medical Association, over 106,000 people die each year from FDA-approved drugs taken as directed. Practically 300 people per day...

That's one death every 5 minutes from taking the FDA-approved dose!

The unnecessary loss of American lives is downright disgusting... But does your government care to warn you? Not a chance. And here's the scary part. **These are common drugs used by millions of Americans every day.**

In fact, chances are good that at least one of these killers is in your medicine cabinet right now... put there by the very authorities paid to protect you.

And here's the worst part: While the FDA pushes Big Pharma's poison profit pills, a veil of secrecy is thrown over real cures that could relieve your pain, ease your suffering, even save your life.

Not anymore. Starting this very minute you don't have to sit still and be a victim of this ruthless conspiracy!

My name is Jenny Thompson. I'm the Director of the Health Sciences Institute (HSI), alternative medicine's premiere global information network. We're an alliance 123,000 strong, made up of enlightened doctors, medical researchers and folks just like you.

For more than 15 years, HSI has been on the frontlines in the fight for your health. We scour the globe in search of the very best natural cures and provide the unbiased health information your family needs to know. I sent this video to you today to blow the whistle on a ruthless conspiracy that is determined to push *poison* down your throat.

In the next few minutes, I'll expose 7 deadly drugs the government wants you to swallow. I can tell you right now chances are very high that one of these potential killers is in your medicine cabinet at this moment.

Plus, I'll tell you all about...

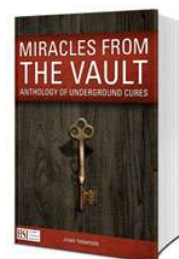

7 natural, safe alternatives -- *amazing cures!* -- for cancer, diabetes, Alzheimer's, arthritis and more... available to you right now

Best of all, I'll tell you how to get a free copy of HSI's most comprehensive resource... *Miracles from the Vault: Anthology of Underground Cures*. "Miracles from the Vault" contains more than 15 years -- and 500 pages -- of natural cures, remedies and treatments.

Yes, for the first time we've opened our private vault to share this massive encyclopedia of alternative medicine absolutely chock-full of vital information you aren't likely to find anywhere else.

Because this is extremely time-sensitive information that impacts your health and the health of your loved ones... I'm going to share with you now **the most important medical breakthrough of the past 100 years...**

Think I'm exaggerating? Then consider this...

A Nobel Prize-winner has unleashed a "biological bounty-hunter" that vaporizes cancer in six weeks... without side effects

In fact, its natural three-pronged attack beat the world's top-selling chemo drug in a clinical trial. This is truly an epic milestone in the war against cancer.

If you or a loved one is fighting cancer, I promise you: This could be the life-saving miracle you've been looking for. Of course, you won't hear about it from the FDA or the big drug companies because they're too busy pushing one of the most dangerous drugs on the planet: **Chemotherapy, #7 on our list of the 7 Most Dangerous Drugs.**

Chemo drugs are *pure poison* that ravage your body, kill healthy cells and create all kinds of devastating side effects... including secondary cancer and DEATH. That's why I'm so excited to tell you about a natural compound I call H-86.

It's the brainchild of Nobel Prize-Winner Albert Szent-Gyorgyi, the same genius who discovered Vitamin C. And does H-86 ever work. It beat the top-selling chemo drug, Tamoxifen, in a head-to-head clinical test in animal research models. It's no surprise Big Pharma and the FDA want to keep it quiet...

The incredible thing is, this natural compound works on many forms of cancer, including nearly impossible to cure colon and pancreatic cancer. Better yet, H-86 kills cancer cells quickly while leaving healthy cells healthy.

Best of all...

H-86 has the toxicity of a slice of white bread... So there are NO SIDE EFFECTS!

That means you or your loved one can beat cancer -- literally add years or even decades to your life -- without suffering the agonizing side effects of chemotherapy.

Let me explain why H-86 is so powerful. You see, your body has a built-in front line defense system called Natural Killer (NK) cells. These NK cells patrol your body, attacking and killing invading bacteria, viruses, and cancer cells.

But here's the thing: Cancer cells are *masters of disguise*... In fact, cancer cells know how to disguise themselves as healthy cells and trick the NK cells. In effect, cancer cells show the NK cells a "fake ID." So the NK cells identify the cancer cells as "healthy" and leave them alone... while the cancer grows and spreads.

This is why H-86 is such a powerful cure... and totally different from chemotherapy. You see, chemotherapy can't tell the difference between normal cells and cancer cells. So it has to destroy *EVERY CELL*... even healthy cells... thus ravaging the body and creating awful side effects.

But H-86 has a remarkable three-pronged attack that kills cancer while leaving normal cells alone

First, it unmasks the cancer cells... literally *ripping the disguise right off cancer's back*.

Second, H-86 chokes the life out of cancer by cutting off its supply of glucose.

Third, when used as a complementary treatment with mainstream methods, H-86 has been shown to decrease the spread of cancer and substantially reduce cancer recurrence.

So does it work? Just ask Dan Hamilton of Omaha, Nebraska. After all, **he saw his tumors vaporize in just six weeks!**

Dan was living on borrowed time. He had advanced Stage IV melanoma and his cancer had spread, invading his lung with a huge metastatic tumor. Dan was enduring devastating chemotherapy, but it simply wasn't working for the lung tumor.

Fortunately, Dan began working with the medical director of a prominent oncology center in California. The medical director put Dan on a dose of H-86... which she had been using on her cancer patients with great success. **Just six weeks later, Dan's tumor was completely gone!**

Imagine how it would feel to finally be free of cancer... to have your doctor tell you that not only had your tumor shrunk, *but it was completely gone!* It happened for Dan Hamilton and it could happen for you, once you have the cancer-fighting power of H-86 in your hands.

And Dan's not the only success story. No, not by a *long shot*... I'm telling you, H-86 can give you what chemo drugs can't: A cure for cancer *without horrible side effects* that take the joy out of living. With H-86, you can live your life -- ENJOY YOUR LIFE -- and beat cancer... side effect-free! And listen: Dan is not alone.

Over 100 scientific studies confirm the miraculous cancer-killing prowess of H-86

Of course, with this kind of success, Big Pharma is taking a serious interest in this miracle. In fact, we recently uncovered an H-86 patent application. The scientists involved come from the University of California Davis -- a hotbed of Big Pharma research. Looks like this mainstream research team is trying to *hijack* H-86.

Now, it will take years to create a pharmaceutical form of H-86. And with cancer, every minute counts. If you or a loved one is fighting cancer, H-86 is truly a miracle that could add years to your life... or even make your cancer disappear completely.

That's why I put all the details about H-86 in a Special Report. The report will tell you **exactly what H-86 is... how to get it... and what the correct dose is**. And this is just one of the amazing cures you'll get in HSI's *Miracles from the Vault: Anthology of Underground Cures*.

"Miracles from the Vault" contains 15 years of investigative medical research. Over 500 pages of cures that can help you beat cancer, diabetes, arthritis, Alzheimer's and more.

It's truly a resource you and your loved ones can't afford to be without. I'll tell you how I'm able to put a free copy of "Miracles from the Vault" in your hands in just a moment. But first, let me tell you about another remarkable cure.

In fact...

Could this revolutionary new "super compound" halt America's diabetes epidemic?

After all, this all-natural blend has proven TWICE as effective as top-selling diabetes drugs. And the only side effect? *Double-digit weight loss!*

After 10 years of extensive testing, a Denver-based research team has developed an all-natural formula that is defeating diabetes in as little as 90 days...

Think about what that could mean for you or a loved one suffering from diabetes. It is nothing short of a life-changing cure and it's available to you, right now.

The timing couldn't be better... even if you haven't been diagnosed. Frighteningly, **7 million people are diabetic and don't even know it** because the symptoms develop so gradually. And the problem is accelerating.

And diabetes is the leading cause of blindness, the leading cause of amputations, the leading cause of kidney failure and the seventh leading cause of death. To make matters worse, the big drug companies and the FDA push drugs that are potentially MORE DANGEROUS than diabetes itself.

Diabetes prescription drugs (Actos, Avandia, Byetta, Metformin and others) are #6 on our list of the 7 Most Dangerous Drugs. Actos is so potentially dangerous, wrongful-death lawsuits have been brought against it and the FDA had to issue a warning that it is associated with an increased risk of heart failure and bladder cancer! Are you kidding me?

But does the FDA ban the drug? Not on your life. Why? With over \$4 billion in annual sales, Actos is just too lucrative. And, sadly, people are so desperate to escape the ravages of diabetes, they're willing to swallow Big Pharma's poison.

Fortunately, there is now an alternative to dangerous diabetes drugs -- an alternative that is **TWICE as effective** at curing diabetes -- without the risk of dangerous side effects.

With this remarkable cure in your hands, you can defeat diabetes... and you can do it without risking your life!

And while Big Pharma and the FDA won't tell you about this breakthrough, we at the Health Sciences Institute will. When your body isn't producing enough insulin, or when your cells become resistant to insulin, sugar can't move into your cells to be burned as energy. So your blood becomes saturated with sugar, resulting in diabetes.

That's why something called DBX-13 is such an important breakthrough... it literally enhances your body's natural ability to process sugar. In fact, it's as if DBX-13 is a "sugar escort"... taking sugar by the hand and marching it out of the blood and into the cells.

The unique thing about DBX-13 is that it is not reliant on just one or two ingredients. It is truly a **"super compound" of 11 natural ingredients**, each shown to fight diabetes on its own. And here's the secret: When you put these ingredients together, in the right proportions, the results are almost *magical*.

Imagine going from diabetic to completely healthy in just three months. It can happen for you! Listen to this...

In a groundbreaking double-blind study... all participants had uncontrolled blood sugar with counts between 160

and 225 (over 126 is considered diabetic.) Within 90 days of starting DBX-13, each participant's fasting blood sugar dropped an average of 107 points. And **every single participant saw their blood sugar drop** into a normal, healthy range.

Even top-selling diabetes prescription drugs like Actos, Byetta, and Metformin only drop blood sugar by 56 points *at most*.

DBX-13 was about twice as effective... *without side effects!*

The results were so remarkable, the research team decided to take the study a step further...

Each participant was literally saturated with 75 grams of sugar (that's about six tablespoons!) Of course, when you take in that much sugar, your blood sugar spikes up, and it may take a long time to level out. But not with DBX-13... Almost everyone taking DBX-13 had close to perfect blood sugar levels within 30 minutes of the sugar load. *That's unheard of...*

And get this: healthy blood sugar is only the tip of the iceberg with DBX-13...

- Each participant taking DBX-13 saw LDL (bad) cholesterol **decrease by an average of 34%**.
- Total cholesterol **dropped by an average of 29%**.
- Triglycerides **fell by an average of 20%**.
- And **average weight loss was 9.3 pounds** with no changes in eating or exercise!

Imagine how good it would feel to drop nearly 10 pounds without depriving yourself of your favorite foods... or sweating it out at the gym every day.

The bottom line is this: If you or a loved one are at risk for diabetes, DBX-13 could change your life, practically overnight. Not only could DBX-13 take you from diabetic to normal in record time...

It could also help you lose 10, 20, even 35 pounds!

That's why I put all the details about DBX-13 in HSI's *Miracles from the Vault: Anthology of Underground Cures*. At more than 500 pages, "Miracles from the Vault" is packed from cover to cover with breakthrough natural cures... therapies that you and your loved ones can use to beat diabetes, cancer, Alzheimer's, arthritis and more.

But first, here's a real life-changer for anyone you know who suffers with arthritis...

A new patent-pending formula is like joint replacement... but without surgery... In fact, it grows new joints naturally!

Could this mean pain-free years added to your life?

You know pain can suck the life right out of you, keeping you from enjoying activities like gardening, playing with your grandchildren or even just walking up the stairs. To make matters worse, arthritis pain is driving millions of Americans into the clutches of Big Pharma... causing unsuspecting folks to use dangerous -- even deadly -- prescription drugs.

Are you a victim? These drugs, known as non-steroid anti-inflammatory drugs (NSAIDs) include Motrin, Bextra, Naproxen, Celebrex... and are #5 on our list of the 7 Most Dangerous Drugs.

Why? The warning labels on these drugs say it all:

"NSAIDs may cause ulcers, bleeding, or holes in the stomach or intestine. These problems may develop at any time during treatment, may happen without warning symptoms, and may cause death."

Thing is, NSAIDs do absolutely nothing to actually treat arthritis. They simply mask the pain while putting your life at risk. Of course, this is perfect for Big Pharma because once you start on the NSAID painkillers, you become a lifelong customer... forever in need of their dangerous medications.

Fortunately, there is an alternative...

An amazing alternative that could change your life

...that not only relieves pain, but also helps fix the underlying cause of arthritis.

Imagine springing out of bed in the morning... pain-free! Imagine going about your life, engaging in the activities you love... without taking a week or more to recover!

The best part? This alternative works naturally to relieve arthritis pain, without dangerous side effects. Let me explain...

Arthritis involves the breakdown of joint cartilage. When the cartilage wears thin, your bones rub against each other, causing the pain, inflammation and stiffness you feel. Now, thanks to a revolutionary product, you can now relieve arthritis pain by growing fresh cartilage. **You can literally replace your old cartilage with new, young cartilage...** helping to buffer your bones and eliminate arthritis pain.

Think of it. Every morning you'll feel better... less pain, *less stiffness*.

You'll literally feel like you've rolled back the clock 25 years

And the best part: You don't have to risk your health to do it!

Amazing. But this science is not new... In fact, it originated back in the early 1960s when an orthopedic surgeon named Dr. Marshall Urist -- the head of bone research at UCLA -- discovered a new protein he called Bone Morphogenetic Proteins (BMPs). The BMPs had the ability to "turn on" stem cells that create new bone and cartilage.

Starting in the 1990s, orthopedic surgeons began using BMPs for bone healing and spinal fusions. And, finally, in 2007, cartilage-growing BMPs were put in a patent-pending formula, designed specifically for arthritis patients.

This formula contains the **ONLY** proteins proven to "turn on" stem cells and grow new cartilage. In other words, **they help your body grow new joints**.

Best of all, the BMPs have anti-inflammatory properties, so they can relieve your arthritis pain. And remember: This formula is natural, so... No side effects! The formula is backed by 40 years of research, 20 years of clinical use and has been used by thousands of healthcare professionals, patients and consumers across the globe with great clinical success.

In one study, this formula, along with glucosamine and chondroitin, was given to arthritis patients three times daily. In just one week, the patients reported a remarkable **51% reduction in pain and a 70% reduction in stiffness!**

In another study, 23 patients suffered from moderate to severe cases of arthritis. The patients were given the formula, along with glucosamine and chondroitin three times daily. After just one week, the group reported an average 27% decline in pain and stiffness. And by the end of the fourth week, they reported a 55% reduction in pain and a **57% increase in ability to participate in recreational activities.**

If you or a loved one suffers from arthritis, this could add pain-free years to your life

Imagine working in your garden...

Taking a walk...

Playing with your grandchildren...

Doing all the things you love...

And doing them **pain-free and without side effects.**

In order to help you take advantage of this breakthrough pain cure, I've put all the specifics about the formula in our Health Sciences Institute encyclopedia, *Miracles from the Vault: Anthology of Underground Cures*.

This extraordinary resource is jam-packed with cures mainstream medicine doesn't want you to know about. It contains more than 500 pages in which you will discover:

- **How to eliminate excruciating kidney pain for good** with this all-in-one stone-crushing cure! (page 13)
- **How to get near-instant relief** from debilitating migraine headaches! (page 36)
- **New hope** for anyone who has ever suffered a stroke! (page 141)
- **Fighting asthma or COPD?** Increase lung capacity up to 90%! (page 181)
- **How to erase pain and fatigue** by recharging your cells' batteries! (page 268)
- **The "choking" weed that starves cancer tumors** by cutting off blood supply! (page 83)
- **How to prevent heart attack and stroke** with an enzyme that dissolves blood clots in hours! (page 126)
- **How to focus your mind and sharpen your memory** with Ayurvedic medicine! (page 350)
- **And there's so much more...**

Alzheimer's reversed?! One exotic Japanese mushroom protects and regenerates brain cells

Wait until you hear what the mainstream is missing...

Alzheimer's (the most common form of dementia) is an insidious disease... sneaking up slowly... disguising itself as "normal aging" and "forgetfulness"... and then stealing away everything you hold dear.

Roughly 5.2 million Americans have Alzheimer's and half of people age 85 or older have the disease already.

Fact is: If you live long enough, you or a loved one is likely to develop Alzheimer's. The good news is, thanks to a remarkable scientific breakthrough, there is a way to protect your brain against Alzheimer's... and even reverse its devastating effects.

If your memory is slipping... if you're having trouble keeping things straight... this cure could restore your mental capacity in a remarkable way. I'll give you the details in a moment. But first, I need to caution you about **Alzheimer's prescription drugs... #4 on our list of the 7 Most Dangerous Drugs.**

As you can imagine, the drug companies are preying on the Alzheimer's pandemic, ruthlessly turning confusion into profits. Take Aricept 23... which the FDA approved DESPITE warnings from the agency's *own* researchers.

The *Los Angeles Times* reports that according to Drs. Steven Woloshin and Lisa Schwartz of Dartmouth Medical College... **Aricept was devised to serve commercial aims and was approved by the FDA despite a poor showing in company-sponsored tests.**

By the way, side effects from Aricept 23 include slow heartbeat, fainting, nausea, vomiting, gastrointestinal bleeding, stomach ulcers and seizures. In other words, Aricept doesn't work well, *if at all*, and it can cause misery for people already suffering from dementia and Alzheimer's.

"There is no excuse for manipulating vulnerable patients, desperate family members and their doctors to use a product that is most likely to cause net harm." say Drs. Woloshin and Schwartz.

I hope you don't get sucked into Big Pharma's profit trap and, quite frankly, there's no reason to. You see, there is an alternative to Aricept...

An alternative that could literally turn back your brain's clock by decades

...protect you and your loved ones against Alzheimer's and even reverse its effects. The best part is, this treatment is 100% natural, has no side effects... and BEAT Aricept in a head-to-head trial.

As you know, Alzheimer's disease is characterized by the buildup of protein deposits in the brain. These deposits, called Amyloid Plaque, are toxic and kill brain cells. This buildup occurs slowly... and the more brain cells that are killed, the worse Alzheimer's symptoms get.

The key is to prevent brain cells from being killed and to replace cells that have already died. Thanks to a revolutionary breakthrough, that is now possible. That means you can literally **stop Alzheimer's and dementia in their tracks.**

Better yet, you can reverse the damage and boost your memory power mega-fold

Let me tell you more...

Back in 1991, a scientist named Dr. Hiazu Kawagishi was researching ways to stimulate brain cell growth. He stumbled across a fascinating mushroom called Lion's Mane that has been associated with enhanced memory in Chinese medicine for centuries. Dr. Kawagishi discovered that the Lion's Mane mushroom contained two unique compounds that did remarkable things.

The first compound, *Amyloban*, protects brain cells from toxic damage brought on by amyloid plaque.

The second compound, *Hericenone*, stimulates new brain cell growth. Think about that.

Not only could the compounds in this mushroom fight off brain-destroying Alzheimer's plaque... it could stimulate the growth of new cells... [turning back your brain's clock!](#)

Dr. Kawagishi formulated an extract containing these compounds that is now patented in Japan as an anti-dementia agent. The extract is also the basis of a formula you can use today to help fight off Alzheimer's and reverse its effects. If you or a loved one suffer from memory problems, you know how frustrating it can be. But thanks to this breakthrough substance, you can get your memory -- and your life -- back to normal.

In one study, seven dementia patients were given the mushroom for six months. **All seven patients -- 100% -- showed improvement in basic functions, including everyday activities like eating, getting dressed, bathing, showering and walking.** And those of us who have a loved one with dementia know how important and challenging those "basic functions" can be.

On top of that, six out of the seven were able to **recover some crucial cognitive powers** like memory, problem solving, expression, understanding and communication.

The results are nothing short of incredible... and we are just getting started

Listen to this: A case study was conducted on Laura Stein, an 81-year-old Florida woman who had struggled with declining cognitive function for years. Laura was put on the formula and after just two months, **her dementia rating dropped into a normal level: No dementia!**

And the changes in her daily life were even more compelling. For example, Laura had struggled to name even four vegetables... but after taking the formula, she could name as many as she was asked to without hesitation.

Before, she couldn't cook, but now she can. Before the formula, she couldn't solve double-digit subtraction problems... but now she can!

Imagine the relief of having your memory back to full capacity...

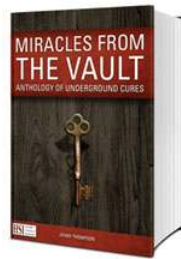

Of being able to think and reason clearly...

To solve problems, remember events and carry out daily tasks like paying bills...

As you would expect, this formula is changing lives... so much so that researchers decided to pit it against leading Alzheimer's drug, Aricept. Scientists gave either the Lion's Mane extract formula or the drug Aricept to Alzheimer Type Dementia model rats...

The rats in the highest dose group did at least as well -- and sometimes better -- in learning memory and recognition than the rats taking the drug Aricept. If you or a loved one suffer from memory loss, dementia or Alzheimer's...

This formula could be the miracle you've asked for

And it could do it without the dangerous side effects associated with prescription drugs that don't work! To help you take advantage of this mushroom extract, I've put all the details in *Miracles from the Vault: Anthology of Underground Cures*.

"Miracles from the Vault" is the most comprehensive collection of alternative cures, remedies and treatments we have ever published. In fact, I can think of no other resource that offers so much life-changing information all in one place. I'll tell you how to get your FREE COPY in just a moment. But first, let me tell you about another cure that could impact your life in a profound way...

Thanks to a Nobel Prize-winning discovery, lowering your blood pressure can now be as easy as enjoying a tasty throat lozenge

I'll give you the details in a moment. But first, let me caution you: **If you're one of the 60 million Americans with high blood pressure... BEWARE!**

You are a prime target for some of the worst drugs in Big Pharma's arsenal. In fact, **blood pressure drugs, including beta blockers, calcium channel blockers and ACE inhibitors are #3 on our list of the Most Dangerous Prescription Drugs.**

Mainstream medicine prescribes blood pressure drugs by the bucket load, and they are notorious for nasty side effects... including dizziness, bleeding gums, severe gastrointestinal problems, fatigue, insomnia, impotence, depression... and worse.

The great news is, there is now a safe alternative to prescription blood pressure drugs... a natural alternative that's as easy as popping a throat lozenge in your mouth!

Let me tell you more...

In 1998, three American pharmacologists were awarded the Nobel Prize for their surprising discovery of how the natural production of nitric oxide can widen blood vessels.

The discovery had such profound implications for heart health that Dr. Valentin Fuster, then-president of the American Heart Association and head of cardiology at Mt. Sinai Hospital, said "*the discovery of nitric oxide and its function is one of the most important in the history of cardiovascular medicine.*"

Make no mistake: This discovery could make Big Pharma's blood pressure drugs obsolete

Here's why... As you may know, the body creates nitric oxide (NO) naturally. And it has many critical functions. For example, nitric oxide stops artery-clogging blood clots from forming... AND it reverses arterial plaque buildup. One of nitric oxide's most important functions is to relax and widen the blood vessels. This enables blood to flow freely and keeps your blood pressure at healthy levels.

Problem is, as you age, your body's ability to produce nitric oxide *decreases 85%*! That's bad news because when the body produces less nitric oxide, arteries begin to stiffen and narrow, which leads to elevated blood pressure, heart disease and stroke.

As you can imagine, the key to maintaining healthy blood pressure is to keep nitric oxide at sufficient levels... but how do you get nitric oxide, a gas, into your system?

HSI scoured the globe and found a company that has developed a nitric oxide-boosting lozenge...

A lozenge that can make your blood pressure worries a thing of the past!

All you need do is dissolve this delicious lozenge in your mouth (don't chew or swallow it) and the benefits start almost immediately as nitric oxide levels are restored to normal.

According to Nobel Prize-winning scientist Louis J. Ignarro, Professor of Molecular and Medical Pharmacology at UCLA, nitric oxide can lower blood pressure by *10 to 60 points!*

And in one study, patients with known cardiovascular risk were asked to take nitric oxide lozenges for 30 days. At the end of the 30 days, not only had the patients' nitric oxide levels increased substantially... but both **their systolic blood pressure AND diastolic blood pressure had dropped!**

But that's not all that happened. The nitric oxide lozenges also had made quite a direct difference in some very important cardiovascular risk factors.

For example:

- **72% of subjects** with high triglyceride levels saw that drop dramatically.
- **Triglyceride levels (fasting) plummeted by up to 55%**, with an average drop of 27%.
- **Up to 37% reduction in C-reactive protein (CRP) levels** in subjects with elevated CRP.
- Plus, more than half the subjects reported **feeling more energetic and less anxious.**

No wonder nitric oxide was named "Molecule of the Year!"

Of course, you won't hear about these nitric oxide lozenges from mainstream medicine. But YOU WILL hear about them from HSI!

With HSI on your side, you'll be able to lower your blood pressure naturally, without dangerous side effects. To help you take advantage of this revolutionary blood pressure cure... I've put all the details in *Miracles from the Vault: Anthology of Underground Cures*.

"Miracles from the Vault" is truly something to behold. More than 500 pages of alternative cures, remedies and treatments... If you or a loved one is facing health challenges -- cancer, diabetes, heart disease, arthritis...

"Miracles from the Vault" could give you the relief and healing you've been searching for.

So please, get your free copy today. I will share all the details with you in a moment, but first I need to warn you...

This is a Medical Alert about America's most popular drug! A new study reveals cholesterol drugs increase diabetes risk by 50%

But here's a natural alternative that safely flushes cholesterol from your body... *without dangerous side effects!*

Listen: High cholesterol is big business... In fact, the big drug companies sold roughly \$14 billion in cholesterol-lowering statin drugs in 2009, under various brand names including Lipitor, Zocor, Baycol and Crestor.

Problem is, **statin drugs (#2 on our list of 7 Most Dangerous Drugs)** have a dark side... a dark side the big drug companies don't want you to know about. Researchers at Harvard University determined that statin drugs increase the risk of diabetes by 50% in women over 45.

The risk of diabetes is so profound, Eric Topol, a top cardiologist and professor of genomics at Scripps Research Institute, warns: "*We're overdosing on cholesterol-lowering statins and the consequence could be a sharp increase in the incidence of Type 2 diabetes.*"

And diabetes is only the tip of the iceberg. Statin side effects include memory loss, acute kidney failure and cataracts. One statin drug, Baycol, was even linked to 50 deaths.

Why put yourself or a loved one at such extreme risk? It's so unnecessary...

You see, although the drug companies won't tell you, there is an alternative to statin drugs... an alternative that can **flush cholesterol out of your body... naturally.**

That means you or your loved one can lower cholesterol -- and reduce your risk of heart attack and stroke -- without putting your life in jeopardy. This remarkable substance is called policosanol, and it works better than statin drugs... without the dangerous side effects!

Let me show you WHY it's so effective... As you may know, there are two kinds of cholesterol... And the key to healthy cholesterol levels is to lower the LDL "bad" cholesterol while increasing the HDL "good" cholesterol... That's exactly what policosanol does.

Policosanol is a mixture of compounds extracted from the waxy coatings found on leaves and stems of the sugar cane plant. Now, despite coming from the sugar cane plant, there is no sugar in policosanol, so it doesn't increase your risk for diabetes like statin drugs.

Not only does policosanol lower your "bad" cholesterol, but it increases your "good" cholesterol.

In one study, researchers compared the effects of policosanol to statin drug Pravastatin on patients who had elevated cholesterol levels and were considered to be at high risk for coronary disease.

Patients took 10 mg of either policosanol or the statin drug with their dinners for eight weeks. The group taking statins saw their LDL levels fall by 15.6% and their total cholesterol by 11.8%.

But those in the policosanol group beat the statin numbers by 19.1% in LDL levels and by 15.1% in total cholesterol levels. Now that's what I call a win!

And get this: While the HDL levels of the statin test subjects didn't improve significantly, **the policosanol group increased their HDL (good cholesterol) by 18.4%.**

Remember, HDL cholesterol aids in the removal of plaque from arterial walls, so an increase in HDL level is a major benefit.

In another study involving 244 post-menopausal women with high cholesterol, researchers first attempted to bring down elevated cholesterol levels through six weeks of diet changes. When this proved unsuccessful, they gave the women 5 mg of policosanol daily for 12 weeks, then 10 mg daily for another 12 weeks.

Researchers found that the supplement was effective in significantly **lowering LDL levels (25.2%) and total cholesterol (16.7%).** In addition, the women experienced a **29.3% increase in HDL levels.**

These results are nothing short of astounding... and again, not only did policosanol beat statin drugs... it works naturally, without side effects!

Please understand: You don't need to risk your life in order to lower your cholesterol

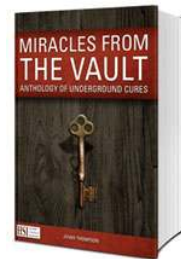

In fact, you can take control of your heart health naturally, without becoming a victim of Big Pharma's statin nightmare. To help you take advantage of this cure for high cholesterol, you'll get every detail in your FREE bonus gift, *Miracles from the Vault: Anthology of Underground Cures*.

This incredible resource is loaded with cures that can change your life and the lives of your loved ones. It contains more than 500 pages in which you will learn all about the cholesterol-lowering prowess of policosanol, and other heart-healthy secrets, including:

- **An easy trick to help shed extra pounds** (results in as little as 15 days) on page 345.

- **And the silkworm's secret:** Ease inflammation and respiratory illness with this enzyme! (page 150)

I'm about to tell you exactly how to get your free copy, immediately after I tell you this vital health alert.

Get ready, because our number one most dangerous drug will surprise and shock you...

Friend, did you know innocent little sleeping pills may be as risky as cigarettes!?

It's true. A shocking report exposed a fivefold higher death risk from Ambien, Lunesta and Restoril.

But a safe, natural formula proves 83% effective at helping you get a deep, peaceful sleep... night after night! If you have trouble getting to sleep, or if you wake up in the night and can't get back to sleep... I've got exciting news! In fact, I'm going to show you a safe, natural way to get a good night's sleep, night after night.

Studies prove that sleep impacts longevity, memory, energy and overall well-being. Good sleep is essential, but as we age, it is hard to get.

Unfortunately, millions of people resort to sleeping drugs like Ambien, Lunesta, Restoril, Sonata and others. Not only are these drugs among the most widely prescribed -- mainstream medicine doles them out like Halloween candy... but they are also **among the most deadly, making them #1 on our list of the 7 Most Dangerous Prescription Drugs.**

How dangerous are they? According to a new study conducted by the Scripps Clinic:

- **People who use sleeping pills have a 530% higher death risk**
- **They also have a 35% higher cancer risk...**
- **Even folks who were prescribed as few as 18 sleeping pills per year had a 360% higher death risk.**

THE 7 MOST DANGEROUS PRESCRIPTION DRUGS

#1: Sleeping Pills

(Ambien, Lunesta, Restoril)

#2: Cholesterol Drugs

(Statins like Baycol)

#3: Blood Pressure Drugs

(Beta-Blockers, Calcium Channel Blockers)

#4: Alzheimer's Drugs

(Aricept 23)

#5: Arthritis Drugs

(NSAIDs like Celebrex)

#6: Diabetes Drugs

(Actos, Avandia, Byetta, Metformin)

#7: Chemotherapy

(Tamoxifen)

"We are not certain. But it looks like sleeping pills could be as risky as smoking cigarettes," states study leader Daniel Kripke, M.D., a professor of psychiatry emeritus at University of California. "It looks much more dangerous to take these pills than to treat insomnia another way."

Fortunately, there is better way to treat insomnia...

A safe, natural way that can help you get a sound, restful sleep... Imagine waking up each morning refreshed... **energized...** and ready to take on the day.

As we age, our bodies change in many ways. One of the changes is an increase in the production of something called cortisol. Now, cortisol is an important hormone in the body, secreted by the adrenal glands and involved in the regulation of blood pressure.

Problem is, too much cortisol in the body can keep us awake at night. Imagine drinking a big cup of coffee before bed... That's what is happening when our body produces too much cortisol. That's why I'm so excited about a natural formula specifically designed to address excess cortisol in your body.

The main ingredient in this formula is *magnolia bark*, which contains two compounds believed to reduce cortisol levels. In addition, the formula contains *ziziphus*, an herb used as a sleep aid in Chinese medicine for over 2,000 years.

The result is a potent sleep formula free of the deadly side effects linked to drugs like Ambien, Lunesta and Restoril.

Does it work? You better believe it...

In a recent study, participants were asked to try this formula for 14 nights. The results were phenomenal.

In fact, 83% of the subjects who took the formula as directed, reported that they felt reduced fatigue. And 83% also said the formula helped ensure a sound night's sleep.

And again, this formula is completely natural, so you don't have the groggy wooziness associated with prescription sleep drugs. That means you wake up refreshed and raring to go! Listen: A good night's sleep is important at any age. But it is particularly important for folks over 65.

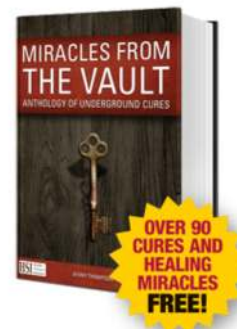

That's why I put all the details about this breakthrough sleep formula in a special report... The report will tell everything you need to know, including exactly how to get this potent and inexpensive sleep formula.

The best part is, this is just one of cures you'll get in HSI's *Miracles from the Vault: Anthology of Underground Cures*. "I am a member to the HSI group and have very much enjoyed reading your various research articles. Your organization is definitely on the 'cutting-edge' and you are indeed providing a wonderful service to humanity at large."

— Thomas N. Indianapolis, IN

"It is really unreal and unbelievable. My blood sugar readings continued to come down. My blood pressure also came down with my weight loss. These two doctors of mine cannot believe these figures... All done with the help of your organization! My wife and I are simply elated. I thank you so very much for changing my life."

— Richard D. Springfield, IL

"I was scheduled for cataract surgery, but learned of [the all-natural eye drops] through HSI. I saw improvement that was so dramatic... the surgeon put off my surgery! Now, I'm praying I NEVER need surgery! Plus, I'm sharing the drops with my husband now. He's shown dramatic improvement too. We believe he won't need surgery either!"

— Margaret D. Sioux Falls, SD

"I was facing advanced prostate cancer that had spread up to my lymph nodes. Thanks to [an underground cancer cure], I was able to beat my metastatic cancer. That was six years ago... and today, I'm still going strong. Thanks to you!"

— Vernon S. Jacksonville, FL
